

Mission

Serve a real user need with first-class, cost effective software and great support.

About Adiscon

Founded in 1988, Adiscon provides effective system management, personal productivity and business applications. Adiscon serves customers of all sizes, ranging from large, global enterprises to individuals. Being incorporated in Germany, Adiscon serves a world wide user basis. Products are available from Adiscon directly and from a global reseller channel.

Adiscon strongly believes in customer driven software. Customer suggestions are highly valued and provide the driving force behind Adiscon's product development. New features almost always stem from user suggestions and comments.

Adiscon partners with Altair Technologies Ltd. of Canada, Ihara, Inc. of Japan and KLV GmbH of Germany. These partnerships ensure awareness of world-wide regional needs. The partner companies provide development and/or localization services to Adiscon. Core products and technologies are developed exclusively by Adiscon itself.

Memberships

Adiscon is member of the Cologne Chamber of Commerce and the Heilbronn Chamber of Commerce.

Legal Status

Adiscon is a privately held German corporation. Major shareholder and president is Rainer Gerhards. Adiscon has incorporated in 1997 as successor of "Rainer Gerhards Consulting & Solutions", a sole proprietorship founded in 1988.

Adiscon is incorporated under the federal ID of "HRB 2448" in Brühl, NW, Germany. The European Union VAT ID (tax ID) is DE 81 22 04 622. Adiscon is an equal-opportunity employer.

Special note to US customers: Adiscon strictly complies with all US export restrictions, even though they might not be in place in Germany.
